IMAPS-Europe Principles on copyright

IMAPS-Europe seeks to retain publishing rights of the articles it publishes without the author giving up their rights to use their own material. Authors are not required to seek permission to reuse their own work. As an author you can use your paper in part or in full, including figures and tables (except where copyright is owned by a third party, in which case you must seek their permission again) if you want to do so in a book, in another article written for us or another publisher, on your web site, or by any other use, without asking us first. We believe that this copyright policy benefits our authors by ensuring that we can:

- Develop our electronic publications and their delivery to meet customer needs and create maximum dissemination of authors' work
 - Protect authors' moral rights and their work from plagiarism, unlawful copying and any other infringement of copyright
- Provide an efficient service for permissions
